Motivated law graduate with a strong academic interest in labour law, workers' rights, and social justice. Currently pursuing a Master's degree in Computational Social Systems in Austria, focusing on the intersection of law, society, and digital technologies. Dedicated to legal research and policy analysis aimed at improving labour protections and contributing to equitable and inclusive social systems.

SKILLS

Legal Research, Labour Law Analysis, Policy Research, Legal Documentation Review, Academic Writing, Social Policy Analysis, Computational Social Systems, Critical Legal Thinking, Research Methodology.

WORK EXPERIENCE

Dr. Kamal Hossain & Associates, Bangladesh   **Jan 2022 - Dec 2022**
Junior Legal Associate   *Dhaka*
  • Assisted senior lawyers in legal research related to civil, constitutional, and corporate law.
  • Drafted legal documents including case summaries, contracts, and legal notices.
  • Conducted legal research on Bangladeshi legislation and court precedents. Assisted in preparing legal briefs and documentation for court submissions.
  • Supported client consultations and case preparation.

A.S & Associates – Barristers & Advocates, Bangladesh   **Jan 2023 - Aug 2024**
Legal Research Assistant   *Dhaka*
  • Conducted legal research on digital law, cybersecurity regulations, and data protection policies.
  • Assisted in preparing legal reports and policy analysis related to cybercrime and digital governance.
  • Reviewed legal literature and case studies related to internet law and emerging technologies.
  • Supported legal teams in preparing research materials for academic and policy discussions.
  • Organized legal documentation and research data for case analysis and reports.

PROJECTS

  • Labour Law and Workers' Rights Research Focused on analyzing labour legislation and policy frameworks that protect workers' rights and ensure fair working conditions.

  • Social Systems and Legal Policy Analysis Exploring how legal institutions and social systems interact to address labour market challenges and promote equitable policy development.

  • Bachelor Thesis: Addressing Cyber Security Policy for Credit Card Fraud in Bangladesh

  This thesis examines the growing problem of credit card fraud in Bangladesh and analyzes the limitations of existing cybersecurity laws. It highlights the need for stronger legal provisions, improved banking policies, and greater public awareness to prevent cybercrime and protect users' financial information.
